All materials bid as of July 1, 2003 must be offered in an alternative format for students who require reading accommodations. A description of the levels of accommodation is included on p.8-9 of this bid packet. The Kentucky Department of Education must receive a copy of the alternative format if the instructional material is placed on the State Multiple List.

Level of Accommodations (Level One, Two or Three) **Level Three**

If Level Two or Three, please provide rationale for not meeting Level One Compliance:

At this time Aries' curricula does not currently meet all of the standards outlined by the level one criteria. To date, these materials accommodate the following:

Non-text elements

- Text equivalent for every non-text element is available
- Frames are titled with text that facilitates frame identification and navigation, however, this feature does not work with screen readers-- direction will need to be provided to students with limitations.

Speech synthesis:

- The software that accompanies each of these textbooks will accommodate commonly used speech synthesis software

Braille conversion programs:

- The software that accompanies these materials has never been tested for compatibility with commonly used Braille conversion programs

File Formats:

- The files in each of these textbooks are available in HTML format.

Future versions of these materials can be designed to accommodate all of the level one requirements.

FEATURES

DISCLAIMER: The features of each book or program were developed by the publisher and do not reflect the opinion of the State Review Team, State Textbook Commission, nor of the Kentucky Department of Education.

Content – Aries textbook content is written to accommodate all types of students. The content is written on a 7th grade reading level and is enhanced with detailed graphics and informative sidebars. Also included is a CD ROM that simulates hands-on lab exercises for students. This not only shows students how to work through various situations, but it encourages them to work along with the simulation.

Student Experiences – We have students throughout the US, Australia, and the Netherlands who have successfully used our courses. We can provide various references from both students and instructors. (Available upon request)

Assessment – Aries Technology has developed a state of the art assessment system. This system does all of the following in an easy to use management system. Aries assessment includes: Attendance tracking, testing (ability to modify questions), statistical analysis, allows the instructor, student and parents to communicate through an internal email system. Also serves an electronic grade book. Our assessment is one of the easiest systems to use.

Organization – Our course content is logically organized and is inline with most industry accepted testing functions, therefore it prepares students for success when taking industry endorsed certification exams.

Resource Materials – Our courses include both student and teacher resources. These aids are offered online and are free of charge to our students and instructors.

Gratis Items To Be Provided And Under What Conditions – Technical Support, Student and Teacher Resources, and assessment services.
